(FME)
Cloud concepts

- Pay only for what you use.
  - Know your use? Save money.
- No up-front investments.
- No insecurity on scale or capacity.
- Economic scale advantages.

- Bonus: Security

"We didn't pick the name Safe Software back in 1993 because of cloud security, but it's now a happy coincidence! "

- SOC 1/SSAE 16/ISAE 3402 (formerly SAS 70)
- SOC 2
- SOC 3
- FISMA, DIACAP, and FedRAMP
- DOD CSM Levels 1-5
- PCI DSS Level 1
- ISO 9001 / ISO 27001
- ITAR
- FIPS 140-2
- MTCS Level 3

- Criminal Justice Information Services (CJIS)
- Cloud Security Alliance (CSA)
- Family Educational Rights and Privacy Act (FERPA)
- Health Insurance Portability and Accountability Act (HIPAA)
- Motion Picture Association of America (MPAA)

Cloud vs Server

- Unlimited engines.
- Automated updates
- Agile and scalable

How hard can it be?

Register.

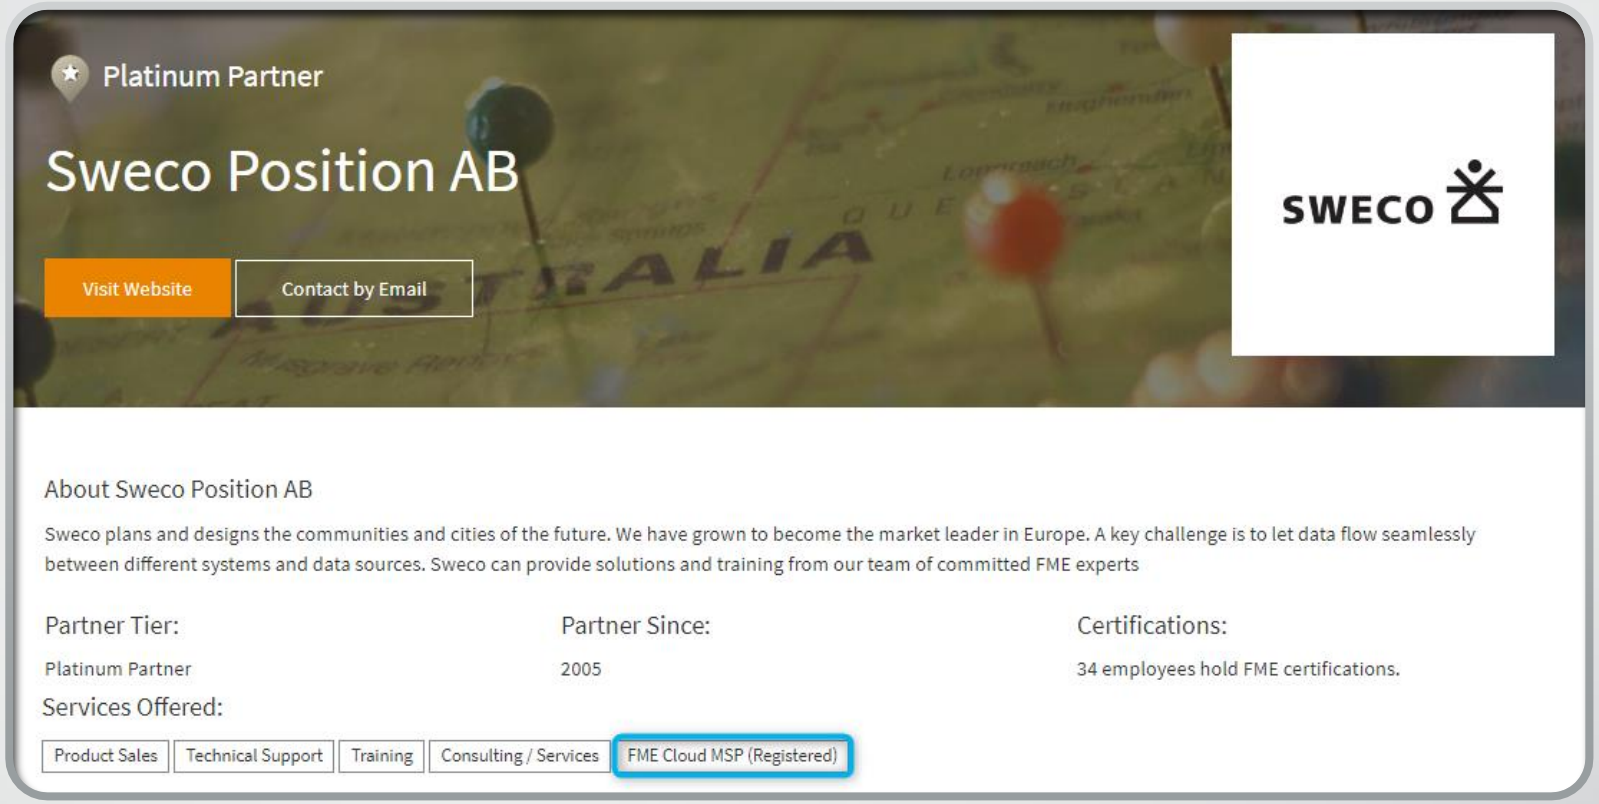
- Go to: Dataflow.center/tools/cloud.html.
- Or click "This" link.

Start a Server.

- Follow the step by step wizard to start a server.

Maintain the server.

- Use the cloud console to keep track of your server.



Let Sweco Position do it for you.

Safe Software registered MSP.

Share this:

Norway wants to join Great Britain and Denmark in the group of 'minecrafted' countries that are publicly accessible.

With this in mind, the Norwegian Mapping Authority invites all Minecraft enthusiasts to download Norway in pieces, to explore and build upon this world. The original map data reused in this popular game is also free and openly available.

More details (in Norwegian) can be found by clicking here.
