Vad är FME Server Apps?

DEMO

Hur skapar man en FME Server App?

The screenshot displays the FME Server web interface. On the left is a dark sidebar with the 'FME SERVER' logo and a navigation menu. The main content area is titled 'Server Apps' and contains a 'Create Server App' form. The sidebar menu includes: Run Workspace, Automations, Schedules, Jobs, Workspaces, Server Apps (expanded to show Build App and Manage Apps), Projects, Files & Connections, ADMIN (User Management, System Configuration, Backup & Restore, Licensing & Engines).

DEMO

A wide-angle landscape photograph. The foreground is a vast, flat, bright green field. In the middle ground, a dense line of trees with varying shades of green and yellow stretches across the horizon. Behind the trees, a small town or village is visible. The sky is a deep blue, filled with large, fluffy white cumulus clouds. The overall scene is bright and cheerful, suggesting a sunny day in late spring or early summer.

Ha en riktigt härlig sommar!
